The Honorable Kathleen Q. Abernathy Commissioner Federal Communications Commission 445 12th Street, SW Washington, D.C. 20554

Dear Ms. Abernathy;

Please stay alert in protecting our great country against all types of sneaky tactics. I urge you not to relax the broadcast ownership rules that protect our citizens from media monopolies.

This attempt could allow giant media conglomerates to present one side of arguments and could hurt future elections of government officials. The environmental groups already have influenced too many celebraties who voice their opinions to American citizens endangering our national forests with fires. It is discouraging to see so many young people change their opinions just because their idols view things differently.

Those who are lobbying the FCC to relax these ownership rules have a track record of attempting to keep opposing viewpoints off the air. These proposed changes would pave the way for giant media conglomerates to gain near-total control of radio and television news.

The American people need to hear more than one point of view on important issues. We deserve the right to make informed decisions.

Sincerely,

Betty L. Stewart

May 2, 2003

**Dear Chairman and Commissioners:** 

I am writing with concern for the possibility that regulations may be relaxed that will allow the control of media to be in the hands of a less diverse group.

Diversity in our media is critical. To allow news coverage and editorial opinion to be concentrated in the hands of a few high-dollar people is asking for trouble.

I am worried that our news will be presented with a 'slant' and that we will have no other alternative viewpoints. Already we have reduced local news, and I am worried that this local coverage will become less important. I am worried that all our op-ed articles will have that same 'slant'.

The rich, powerful few are beginning to have their way in many aspects of our lives. The problem is that often what is beneficial for them is not very good for everyone else. Public media has been a good guardian against these kinds of greed, and we <u>must</u> not weaken this independent coverage. Just the opposite — we should <u>encourage</u> independent media.

Yes, the high-rollers have enough power to crowd out the smaller media companies. I am sure they must be pressuring you to allow them to control more markets. However, you are in a unique position to make the correct decisions on the behalf of us normal people. You folks at the FCC are the ones who can make personal and public stands that will help us all.

Thanks for your time with this.

Sincerely.

Re: Broadcast Ownership Rules

Dear Sir;

I cannot believe that a proposal to allow combining broadcast companies is being seriously considered. There are far too many large, almost monopolistic, broadcast companies in this nation at this time. We need more diversification, not larger media conglomerates.

Any claims as to better programming and the like are obviously sheer, utter nonsense. Money and control are the issues here. Period.

I seriously request that you rule for the general population, not for those few people who stand to get richer from this most un-exceptional approach. The media is currently monopolized by a few who do not necessarily report factually, to say the least.

The Commission is supposed to work for the general population, who pay their expenses, by the way. Please rule for the people and not the money grubbers who are rich enough as it as.

Yours truly

The Honorable Michael K. Powell Chairman, Federal Communications Commission 445 12<sup>th</sup> Street, SW Washington, D.C. 20554

Dear Chairman Powell:

I am appealing to you <u>not to change</u> the present "Broadcast Ownership Rules" which provide protection against monopoly of expression of by media giants, who tend to refuse to air views different from their own on controversial issues.

As I understand the present broadcast ownership regulations, they ensure that the many views on controversial issues of the day can be expressed by providing for the existence of smaller media outlets with differing views

Freedom and opportunities to express publicly differing views is essential for a self-governing nation such as the United States. Under the present regulations, citizens can hear many views on controversial issues, and not only those filtered through the larger media ownership. Let's keep in effect the present regulations which guarantee the wide ownership of radio and television broadcast channel through which differing views can be publicly expressed.

## RE: OFFICIAL FILING TO OPPOSE MEDIA CONSOLIDATION

Dear Chairman Michael Powell:

We are officially submitting our opposition to relaxation of media rules that will lead to media consolidation. We started our offering on May 16, 2003 through a Web site of <a href="https://www.tspnotes.com">www.tspnotes.com</a> to raise capital to finance the pending proposed exchange tender offers and the amendments to include more public entities.

Inside the tspnotes prospectus, we made most of our points to oppose the relaxation of the rules that will lead to more media consolidation. Our points are part of our business plan. It will be appropriate to review the tspnotes prospectus that will guide the FCC regarding such relaxation. One of the most interesting points is that if the media giants don't like the current rules, they should get out of the business. Nothing in he constitution that says one must work in the media industry. The U.S. Constitution only states that one has the right to make a living. Such living is not specified. Meaning, you don't have to remain on a job you don't like. Especially if you're a "big business."

Again we are requesting FCC to cease the review of News Corporation's pending transaction to acquire 34% stake of Hughes Electronics Corporation with a press release from FCC to attribute such action to Toks' offering ongoing on its Web site at <a href="https://www.tspnotes.com">www.tspnotes.com</a> because this is about America. This is about American people. No "cover up" and no "censorship."

We requested via e-mails sent to Mr. President Bush to gather his top economic advisers and prepare a report on the economic impact of the whole transaction in United States and to American people.

FCC can visit the Web site at www.tspnotes.com and review the Web site, Also, FCC can click on "Official Letter To Shareholders' and scroll down to read the "Official Letter' to both FCC chairman and FCC a well. FCC may review all the "Official Letters" targeted to different government agencies. His is serious business about this media consolidation.

We sent e-mails to various news media organization and we will follow up to remind them that they must not engage in "censorship" and "cover-up." We are prepared to take Los Angeles Times to court seeking a court order to mandate Los Angles Time to do a cover story on our Web site because this is about targeting both investors and shareholder of these entities regarding the whole transaction.

We are attaching the "Breaking News" materials sent via fax to numerous entities across the globe.

Thank you.

Sincerely,

Ade O. Ogunjobi

Chairman & Chief Executive Officer

# BREAKING NEWS FROM MALIBU

P.O. BOX 503 MALIBU, CA 90265

Tel: (310) 967-1359

### TO WHOM IT MAY CONCERN

#### Dear Sir/Madam:

The Web site <u>www.tspnotes.com</u> is Toks' \$50,000,000,000 TSPNotes, an investment grade "high yield" offering that starts this month of May 2003 to raise \$1,000,000,000 to \$10,000,000,000 in capital will finally addressed the main "stubborn" issue to finance the pending proposed exchange tender offers filed October 8, 2001 to acquire AOL Time Warner, Inc. AT&T Corporation, AT&T Wireless Services, Inc., General Electric Company, General Motors Corporation, Hughes Electronics Corporation and Marriott International in stock.

The amendments to our 425 Notices will include the acquisition of Comcast Corporation, Fox Entertainment Group, Inc., Microsoft Corporation, News Corporation, SBC Corporation, Tribune Company, Vivendi Universal SA and Vodafone Group in stock. We will earmarked \$10,000,000,000,000 in stock issue to the shareholders of these entities in the closing of the proposed exchange tender offers. We will sell off \$300,000,000,000 in assets to generate cash that will be used to pay dividends and reduce all outstanding debts, even though we plan to issue "new" notes of Toks, Inc. to replace "old" notes of all outstanding debts of acquired entities.

Our offering as in the notes that will be sold to retail investors, institutional investors and shareholders of these public entities will only be redeemed with common shares. This means we will never default. Also, we are paying 13% on each principal. Also, if all the notes are sold, we don't mind. We already allocated \$450,000,000,000 in unregistered securities to redeem the \$50,000,000,000 notes if all sold. How long all the notes will be sold, we are not in the position to predict. But our goal is to raise \$1,000,000,000 and up to start the process closing the proposed exchange tender offers. We are only exercising our rights to gain access to capital markets. No one is allowed to "monopolize" capital markets, even if some "big boys" already displayed such "egregious" mentality.

We will not be using any agents or investment banks as underwriters because after a brief solicitation of agents and investment banks to syndicate sale of the notes, and no response, we felt that this particular issue is delicate for some investment banks to undertake since a lot of these financial institutions do business with these public entities we proposed to acquire. So, we are underwriting the issue by requesting "Buyers" to send in checks attached to the "Investment Letter" on the Web site "Buyers" can print and mail. Agents and investment banks will be encouraged to buy notes through their own accounts or on behalf of their clients.

For more information review the \$50,000,000,000 TSPNotes prospectus on our Web site <a href="https://www.tspnotes.com">www.tspnotes.com</a> for additional information. The information inside the prospectus will be very helpful. Such information outlines why the entities included in the amendments and how assets will be sold. The Microsoft Corporation information is very interesting.

Also going to the Web site will also show the "Official Letters" posted on the Web site to President Bush, shareholders of all the entities that will be acquired, investors, various government agencies in United States and Europe to review. We also posted "Official Letter" to all 50 States Attorney Generals.

We will require both NBC, CNN, Los Angeles Times, Chicago Tribune to do a complete "cover story" on this offering using all the documents/materials posted on the Web site that will reach out to the shareholders and investors. Failure to do so may result in a compliant/lawsuit filing to get court order to mandate NBC, CNN, Los Angeles Times and Chicago Tribune to cover the story that will benefit he shareholders, citizens and the government. Because if they refuse they are participating in a "cover-up" and "censorship." It's okay for media to go to court under "Freedom of Information Act" to request certain information to be divulged because it serves the community. But, the same media want to "censor" certain information to appease some "big boys" because such coverage may upset them. Management of publicly traded entities to be upset about information being divulged to their shareholders? The rest of the media outlets may conduct their own full "cover story" or may not. It's up to each news organization.

But NBC, CNN, Los Angeles Times, Chicago Tribune don't have such luxury. We are acquiring them on behalf of their shareholders. These acquisitions will maximize heir investments. These are publicly traded entities. Failure to do so is insubordination that we will address in the future after closing of the proposed exchange tender offers. Read between the lines.

This is a "big" one.

Thank you.

Dear Commissioner Abernathy:

As a citizen who cherishes the First Amendment of the U.S. Constitution, I am deeply disturbed to hear that the Federal Communications Commission is considering sweeping changes to the already weakened broadcast ownership rules.

Media domination by megacorporations has become overpowering and repeal or significant modifications of the existing regulations would open the door for additional mergers. I fear that Americans eventually will receive their information from a "Big Brother" and our monopoly-dominated news outlets will lose what's left of their fading credibility.

We hear that more than 70 percent of the American people are not aware of the immense changes that may be adopted on June 2. The public must have a chance to review and comment on any specific changes the commission plans to implement.

Do we really want a country that's dictated to by Big Media? Is the commission aware that journalistic standards are deeply rooted in American heritage and that the bottom line is not the final determining factor in the newsgathering process?

Our armed forces just went to war in the name of democracy and the elimination of tyranny in Iraq. Are we to set an example to the world by silencing the diverse voices of freedom in our own society? I hope not.

There's too much at stake. The issue must be put before the American people so they will understand what is happening.

Sincerely,

Joseph F. Schneider
